ICC basic

/// Data Sheet

Compact immersion circulator ICC basic for tempering of liquids up to 150 °C. Suitable to use in open or covered bath vessels.

The integrated pressure/ suction pump allows ICC basic to be used for internal and external applications. Just connect the optional pump set. ICC basic also has an optional cooling coil that allows to work close to ambient temperatures. The ICC basic circulator is first in its class with an integrated carrying handle that allows for comfortable transport and safe storage thanks to its clever stand.
