BRANDGROUP®

Reliability from development to service

Tradition

VITLAB has over 100 years of tradition. The compa- ny VITRI GmbH & Co. KG was established in 1908 in Mühltal, and the laboratory division was spun off in 1989 as VITLAB.

Today, VITLAB is one of the leading manufacturers of liquid handling instruments and performance plastic laboratory products for one-time or long-term use. We develop and manufacture these laboratory products at our own production facility.

Quality

Independent inspections and routine internal audits guarantee the effectiveness of VITLAB's quality management system throughout the entire company, from development to shipment.

As a result, the phrase 'Made by VITLAB' has become synonymous with quality. VITLAB has been continuously certified since January 1994, according to DIN EN ISO 9001.

Active stewardship of the environment is an equally strong pillar of our business philosophy. VITLAB has been certified according to DIN ISO 14001 since May, 1999.

Our Offering

Our extensive range of products provides optimal support in your laboratory work in a wide variety of application ranges.

Regardless of whether your work involves volume measurement, sampling or storage: VITLAB products will facilitate it while continuing to ensure that you achieve perfect results.

Individuality

VITLAB specializes in the printing of exact scales of laboratory instruments. Companies can use this know- how for individually designed scales or for product and company logos, which can be used for internal labelling or as promotional articles to enhance the sales process.

Service

Due to its intensive partnerships with distributors in over 70 countries, VITLAB can offer sound on-site advice, individual support, and quick answers to your questions.

Our qualified product training sessions provide comprehensive technical and application-oriented information on using our products. Should problems arise, our expert repair service keeps downtime as short as possible.

Information

Our extensive range of products is available on the Internet under www.vitlab.com. All articles are also listed in the Catalogue with detailed descriptions and pictures.

Just drop in and have a look!

VITLAB®, VITLAB®, maneus®, pipeo®, VITsafeTM, VITgripTM sind Marken der VITLAB GmbH.

Calibration certificates

For all volumetric instruments that are subject to test equipment monitoring, a written documentation about the regularly calibration resp. volume control is necessary. The documentation should contain the values for accuracy and coefficient of variation as well as the testing procedure and test frequency. A distinction is made between:

- Quality certificates (factory calibration report)
- Official calibration certificates (Bureau of standards, DAkkS)

Quality certificates

The VITLAB quality certificate is a factory calibration report on the basis of the quality assurance system according to DIN EN ISO 9001. Quality certificates are available as a batch or individual certificate. Devices from one production batch have the same lot number as the quality certificate. The certificate records for the specific batch the mean value, standard dev- iation and day of issue. In the case of an individual certificate, the volumetric instrument and the certificate bear an indivi- dual serial number in addition to the lot number. The certificate records besides the day of issue also the measured volume and the measurement uncertainty.

DAkkS calibration certificate

The DAkkS calibration certificate documents officially the traceability of measuring results to national and international standards as required by the standards DIN EN ISO 9001 and DIN EN ISO / IEC 17025 for the monitoring of measuring in- struments. A major difference between factory calibration services and DAkkS laboratories is the accurate determination of the respective uncertainty of measurement guaranteed by the accredited laboratory and supervised by the DAkkS. DAkkS calibration certificates are appropriate in uses in which calibrations of an accredited laboratory are requested, where high level calibrations are demanded and for calibration of reference standards and instruments for comparative measurements.

Calibration service

VITLAB offers a repair, maintenance and calibration service (incl. DAkkS calibration) for all Liquid Handling devices made by VITLAB. The calibration laboratory accredited by the „Deutsche Akkreditierungsstelle GmbH“ (DAkkS) is authorized to issue DAkkS Calibration certificates for the following instruments: Liquid Handling products like VITLAB piston-operated pipettes and burettes, VITLAB dispenser

DAkkS calibration service

Extra charges for new VITLAB intruments that are ordered ex works with DAkkS calibration including certificate:

Order number	Product description	Extra charge (€) per item
DAkkS/xxxxxxx	VITLAB® continuous E/RS	70.00
DAkkS/xxxxxxx	VITLAB® genius2, simplex2, TA2	70.00
DAkkS/xxxxxxx	VITLAB® piccolo und simplex2 fix	45.00
DAkkS/xxxxxxx	VITLAB ® micropipette	53.00
DAkkS/xxxxx	VITLAB ® Messzylinder	65.50
DAkkS/xxxxx	VITLAB ® Messkolben	65.50

To order a new VITLAB instrument with DAkkS calibration, please add „DAkkS/...“ as a prefix to the corresponding catalogue number.

Individual factory calibration service

Extra charges for new VITLAB instruments that are ordered ex works with an individual factory calibration including certificate:

Order number	Product description	Extra charge (€) per item
EZ/xxxxxxx	VITLAB® continuous E/RS	100.88
EZ/xxxxxxx	VITLAB® genius2, simplex2, TA2	86.62
EZ/xxxxxxx	VITLAB® piccolo und simplex2 fix	86.62
EZ/xxxxxxx	VITLAB ® micropipette	86.62
EZ/xxxxx	VITLAB ® Messzylinder	25.68
EZ/xxxxx	VITLAB ® Messkolben	25.68

To order a new VITLAB instrument with an individual factory calibration, please add „EZ/...“ as a prefix to the corresponding catalogue number.

General Terms and Conditions VITLAB GmbH

1. General

1.1 These General Terms and Conditions of Business of VITLAB GmbH ("VITLAB") are intended only for use in business transactions with entrepreneurs (Section 14 of the German Civil Code [BGB]). An entrepreneur is a natural or legal person or a partnership with legal capacity who, when cncluding a legal transaction, acts in the exercise of his commercial or independent professional activity.

1.2 These GTC apply to all, including future, contracts with the customer. Other terms and conditions shall not become part of the contract, even if VITLAB does not expressly object to them. Amendments to and changes of the contract must be in written form. The waiver of the requirement for written form shall only be possible in writing. This shall not apply to individual contractual agreements. The language of the contract shall be German and/ or English. In the event of a discrepancy between the German language version of these GT&C and a version in any language, the German language version shall prevail.

1.3 VITLAB offers are subject to change and non-binding. VITLAB reserves the right to make technical improvements to VITLAB products.

1.4 VITLAB may electronically store and process the data required for the execution of the contract. Further information on data protection is contained in the data protection declaration www.vitlab.com/en/vitlab-infos/data-privacy-statement/

1.5 A set-off by the customer shall not be permitted unless the counterclaims are undisputed or legally established, or pecuniary counterclaims arising from the right to refuse payment pursuant to Section 320 Bürgerliches Gesetzbuch (BGB) (German Civil Code).

1.6 For commercial transactions with customers having no general place of jurisdiction in Germany and between businesses, public law persons or special funds under public law the place of jurisdiction shall be the court responsible in Aschaffenburg, Germany. VITLAB shall also be entitled to appeal to the court responsible for the head office of the customer. VITLAB shall, furthermore, as plaintiff have the right to invoke the Arbitration Court at the Chamber of Commerce and Industry in Frankfurt am Main, Germany. The Arbitration Court shall, in this case, make the final judgment in accordance with the Rules of Arbitration of the Chamber of Commerce and Industry in Frankfurt am Main without recourse to the ordinary courts of law. The instigation of legal dunning proceedings by VITLAB shall not signify the exertion of its right of choice; it shall be admissible in all cases.

1.7 German law shall apply exclusively under the exclusion of the conflict of laws principles of Private International Law and the UN Convention on Contracts for International the Sale of Goods (CISG).

2. Delivery

2.1 The place of performance is VITLAB's factory in Großostheim, Germany. Unless otherwise agreed, delivery shall be made FCA Großostheim (Incoterms® 2020 free carrier). The risk is transferred to the customer as soon as the goods have been packed and loaded for transport (FCA Großostheim, even if partial deliveries are made or if VITLAB provides other services (e.g. dispatch, transport, packaging or insurance costs, export, or installation). This also applies in the case of delivery to a consignment warehouse at the customer.

2.2 Insofar as VITLAB has agreed to orders on call, the customer must take delivery prior to the agreed date, otherwise within six (6) months.

2.3 Orders with a goods value of below € 250 shall be subject to a minimum order surcharge of € 50. Delivery shall be undertaken generally in packaging units (PU) according to the currently valid price list. For deliveries within five (5) working days or for order values up to € 500, VITLAB reserves the right to waive an order confirmation.

3. Delivery Period, Force Majeure, Delay

3.1 Delivery times shall be ex works. Delivery periods or delivery dates are subject to the customer providing relevant information and documents such as drawings, permits or approvals, opening letters of credit as agreed, making agreed advanced payments and complying with any obligation on time. In particular, the customer is obliged to immediately provide all information required for export, import or shipment (e.g. final recipient, final destination and intended use), documents, approvals and certificates which may be required for the fulfillment of VITLAB's obligations. If delays occur due to required approval, examination or information procedures, delivery periods and delivery dates shall be extended accordingly if VITLAB is not solely responsible for the delay.

3.2 Delivery shall be subject to VITLAB receiving its own supplies punctually and in good order.

3.3 If non-compliance with delivery periods are due to force majeure (e.g., natural disasters, pandemics, mobilization, war, or riot) or similar events beyond VITLAB's control (e.g. strikes or lockouts), the delivery periods shall be extended by the periods during which the aforementioned event or its effects persist.

3.4 VITLAB shall immediately inform the customer about delivery barriers or delays and their expected duration.

3.5 VITLAB shall be considered to be in default of delivery only if the customer has issued VITLAB with a reminder, has set a reasonable extension period which has elapsed. The customer shall be obliged to immediately inform VITLAB in writing of any likely consequences of delay.

3.6 In the case of delay damages, VITLAB's liability for compensation shall be limited to 10% of the value of the delayed delivery/ service. The limitation shall not apply in cases of willful intent, gross negligence and/ or injury to life, limb or health.

4. Prices, Terms of Payment

4.1 Prices shall be FCA Großostheim (Incoterms® 2020 free carrier) and exclusive of statutory value added tax, if applicable. Costs for packaging as well as transport, freight, and insurance shall be borne by the customer. The cost of returning products for maintenance or disposal will not be covered.

4.2 Invoices shall be payable to VITLAB account in EUROs (€) without deductions. Payment shall be made immediately or by the date stated. The determinant factor shall be the receipt of payment. Cheques and bills of exchange shall only be accepted on account of performance and at the cost of the customer.

4.3 In the case of customers, with whom VITLAB is working for the first time or with whom VITLAB does not work regularly, after delay in payment or in the case of reasonable doubt as to the creditworthiness of the customer, VITLAB shall reserve the right to make individual deliveries dependent on a pre-payment or a security deposit to the value of the invoice amount.

4.4 Should the period between conclusion of contract and agreed delivery exceed four (4) months, so may VITLAB, at its discretion, demand a reasonable additional charge equivalent to the increase in its costs up until delivery.

4.5 In the case of an agreed return of goods that are free of defects, the customer shall be charged a checking and processing fee of 20 % of the invoice amount (minimum € 50).

4.6 Should the customer be in arrears with payment, VITLAB debt claims against him shall be due immediately, and VITLAB shall not be obliged to make any further deliveries based on current delivery contracts.

4.7 If payment is delayed, VITLAB shall charge – notwithstanding further damage compensation claims – interest on arrears at the statutory rate.

4.8 VITLAB may offset amounts payable to the customer (e.g. from credit notes) against VITLAB claims against the customer.

5. Retention of Title, Assignment of Future Claims

5.1 The goods delivered shall remain property of VITLAB until the complete and unconditional payment. Should VITLAB still have further claims against the customer arising from the business relationship, VITLAB shall then retain its property rights until payment of such claims has been effected.

5.2 The customer may neither use goods subject to retention of title nor combine them with other objects to which a third party may have rights. Should, however, goods subject to retention of title become, through their combination with other objects, part of a new (complete) item, VITLAB shall be a proportional co-owner of this new item directly, even if this latter component is regarded as the main component. VITLAB'S proportion of co-ownership shall be determined by the ratio of the invoice value of the goods to the value of the new item at the time of combination.

5.3 The customer may resell goods subject to retention of title in the course of his normal business as long as he has not assigned, pledged or otherwise encumbered his claims from the resale.

5.4 The customer shall assign to VITLAB in advance as collateral any claims against his customers from the resale of the goods subject to retention of title (see Clause 5.3) and/or newly formed items (see Clause 5.2) to the value of VITLAB's invoice for the goods subject to retention of title. As long as the customer is not in default of payment for the goods subject to retention of title, he may collect the assigned claims in the ordinary course of business. He may, however, only use the proportional proceeds for the payment to VITLAB for the goods subject to retention of title.

5.5 At the customer's request, VITLAB will release collateral at its discretion if and to the extent that their value exceeds the claim to be secured by more than 20%.

5.6 The customer shall be required to inform VITLAB immediately of any attachments, seizures or any other third-party dispositions relating to the goods that are reserved or co-owned by VITLAB.

5.7 In the event of delay in payment, failure to pay bills of exchange or cheques, or failure or recall of a payment made via SEPA Direct Debit Scheme, suspension of payments or insolvency of the customer or of the end buyer, the rights of the customer under Clause 5.3 shall no longer be valid. The customer must then immediately inform the buyer of VITLAB's extended retention of title; he may use the proportional proceeds relating to the assignment only to pay for the delivered goods. VITLAB shall be entitled to collect the assigned receivables itself.

5.8 In the event of customer's culpable breach of contractual obligations, in particular for the cases covered in Clause 5.7, VITLAB shall be entitled to withdraw from the contract and/or, without withdrawing from the contract, demand the return of any goods subject to retention of title still in possession of the customer and to collect the assigned receivables itself. In order to ascertain the rights of VITLAB, VITLAB shall be entitled to have all of customer's documents/books concerning the reserved rights examined by a person who is subject to the professional duty of confidentiality.

6. Warranty, Limitation of Liability

6.1 VITLAB warrants that its delivered goods (including any agreed installation) are free of defects at time of risk transfer. The condition owed, durability, and use of the deliverables is based on the specification, product description, and/or operating instructions agreed upon.

6.2 Should the customer require the delivered goods for purposes other than those agreed, he must take responsibility himself for examining their special suitability for this - also in terms of product safety – and ensure their compliance with all relevant technical, legal or regulatory provisions before the intended use. VITLAB excludes liability for any usability not confirmed by VITLAB. In the case of material or design requirements of the customer, VITLAB shall accept no liability for the suitability or permissibility of the desired materials or designs. Compliance with safety-related and occupational health regulations depends on the location and operating conditions of which VITLAB has no prior knowledge. Action for ensuring compliance shall therefore be the responsibility of the customer or his buyer.

6.3 VITLAB shall not be liable for the consequences of improper handling, use, maintenance and operation of the delivered goods; the consequences of normal wear and tear, in particular of wearing parts, such as pistons, seals, valves; the breakage of glass, plastic or ceramic parts; for the consequences of chemical, electrochemical or electrical influences; or non-observance of the operating instructions.

6.4 If a notice of defect is justified, VITLAB shall initially only be required to provide cure. Any such cure shall be, at the discretion of VITLAB, either rectification of the defect or delivery of goods free of defects. Further warranty claims shall only apply in the event of rejection, impossibility or failure of the cure. Customs numbers assigned to BRAND (EORI number) may only be used fort he return of delivered goods, whether fort he rectification of defects or for other reasons, with the ewritten permission of VITLAB.

6.5 The customer must, immediately upon receipt of the goods, inspect them carefully, also in terms of product safety, and notify obvious defects immediately in writing; any hidden defects must be immediately notified upon discovery. The customer must notify the carrier immediately of any transport damage. Failure to observe the testing and notification obligation shall void any customer claims for defects.

6.6 VITLAB's liability for slight negligence shall be limited to claims for injury to life, limb or health, to claims under the Produkthaftungsgesetz (German Product Liability Act) or to claims of culpable breach of fundamental contractual obligations through which the purpose of the contract is endangered. Otherwise, our liability for slightly negligent breach of fundamental contractual obligations is limited to the typically occurring damages which VITLAB could have foreseen when the contract was concluded.

6.7 Should the customer use the delivered goods in conjunction with environmentally harmful, toxic, radioactive or otherwise hazardous materials, he must notify VITLAB about any such materials and decontaminate the delivered goods prior to returning them to VITLAB.If the customer does not clean the goods according to the declaration of no health risk, VITLAB may charge the customer for the costs required for the decontamination/cleaning and disposal of the hazardous substances arising in the process. If the device cannot be decontaminated/cleaned even by VITLAB because of existing health hazards for the employees depending on the type of hazardous substances, the entire device must be disposed of as hazardous waste. The costs incurred for this shall be the responsibility of the customer.

7. Limitation Period

7.1 The warranty period shall be one year and starts from the date of delivery of the goods to the customer. The same shall apply for claims for damages, irrespective of their legal basis.

7.2 The limitation periods of Section 438 Para. 1 Nos. 1 and 2and Section 634a Para. 1 No. 2 of the BGB (German Civil Code) shall remain unaffected.

7.3 The warranty period for any rights of recourse pursuant to Section 445a BGB (German Civil Code) shall be one year and starts from the date of delivery of the goods to the customer.

7.4 The restrictions of the limitation periods shall not apply to claims based on fraudulent concealment of a defect, for claims under the Produkthaftungsgesetz (German Product Liability Act) or for damages resulting from injury to life, limb or health and other damages based on intent or gross negligence.

7.5 The limitation period in respect of replaced or repaired goods shall only commence anew if VITLAB admitted the defectiveness of the replaced or repaired goods.

8. Packaging

Insofar as no agreement tot he contrary has been made, VITLAB shall take back transport packaging, sales packaging of hazardous goods and reusable packaging that was part of a consignment of goods from VITLAB at VITLAB's plant in Großostheim, completely emptied, in ordert o fulfill ist take-back obligation n accordance with § 15 of German Packaging Act [VerpackG]. The customer shall bear the costs of shipment tot he place of performance.

9. Software Use

9.1 If software is included in the scope of a delivery, the customer shall be granted a non-exclusive right to use the software and its associated documentation. It is provided for use on the designated delivery item. The use of the software on more than one system shall be prohibited.

9.2 The customer shall only be entitled to copy, transfer or translate the software or to convert it from object code to source code to the extent permitted by law (Sections 69a et seq. Urheberrechtsgesetz – German Copyright Act). The customer undertakes to refrain from removing manufacturer information, in particular copyright notices, or from changing these without VITLAB's prior express consent or the prior express consent of the software supplier.

9.3 All other rights to the software and the documentation including copies thereof shall remain with VITLAB and/or the software supplier. The issue of sublicenses is not permitted.

10. Spare Parts, Maintenance/Repair and Calibration

10.1 For spare parts and maintenance, repair and calibration services, the current repair service and spare parts price list shall apply.

10.2 Insofar as there is an obligation on the part of VITLAB to maintain/supply spare parts, then this obligation shall be limited to a period of five (5) years from the date of delivery. If spare parts are not manufactured by VITLAB, or are no longer available on the market, for example electronic components, or if the raw material for their production is no longer available, the obligation of VITLAB to deliver spare parts shall lapse.

10.3 For calibration and maintenance, expendable items from VITLAB production are normally used.

10.4 Maintenance and calibration services can only be provided if the customer has declared the devices sent to be safe to work on from a health hazard perspective.

10.5 For repair/service values of up to € 50, VITLAB reserves the right not to provide a separate cost estimate.

11. Legal Reservation, Industrial Property Rights, Confidentiality

11.1 VITLAB reserves ownership and all industrial property rights and copyrights to all moulds, tools or other devices, samples, pictures, and business and technical documents produced or provided by VITLAB. This also applies where the customer has wholly or in part taken on the costs hereof. The customer may use these only in the manner agreed with VITLAB. Without VITLAB's written consent, the customer may not himself manufacture contractual objects delivered or have the same manufactured by third parties.

11.2 Insofar as VITLAB delivers goods according to the designs or other requirements specified by the customer (models, patterns etc.), the customer shall be liable to VITLAB by default for ensuring that, through the manufacture and delivery of these goods, the industrial property rights or other rights of third parties are not infringed. If the customer is at fault he shall reimburse VITLAB all damage resulting from any such infringement of rights.

11.3 Any information acquired from this business relationship and not deemed to be public knowledge must not be disclosed by the customer to third parties.

VITLAB®
Competence in Labware

VITLAB is a leading manufacturer of liquid handling instruments and plastic laboratory products worldwide. High class laboratory devices are developed and manufactured in our own production facilities.

Our extensive range of products provides optimal support for your laboratory work in a wide variety of application ranges.

Regardless of whether your work involves volume measurement, titration, dosing, pipetting, sampling or storage: the goal of our development and production is to provide products which facilitate your daily lab tasks and always deliver perfect results.

In addition to the range of products that appears in our catalogue, we also produce plastic products according to customer specification; for example, printed with your company name, your logo or individualised scale.

Our products are premium quality! See for yourself!
