Quality certificates at BRAND

Certificates for Liquid Handling instruments and volumetric instruments

All BLAUBRAND® volumetric instruments (Class A), Class A plastic volumetric instruments, and Liquid Handling instruments for volume measurement are supplied with a certificate. This reduces both the cost of your initial assessment and the monitoring of measuring instruments. The data can be easily transferred from the certificate. BRAND lists all measuring instruments used and the date of issue on each certificate. Each certificate also includes the Declaration of Conformity in accordance with the German Weights and Measures Act and its regulations. Either a batch number (batch certificate) or a serial number (individual certificate) is printed on the certificate and on the instrument.

e.g. BLAUBRAND® batch certificate

Declaration of Conformity in accordance with German Weights and Measures Act for BLAUBRAND® volumetric instruments

Certificates for consumables with BIO-CERT® quality level

Batch certificates for consumables with BIO-CERT® quality level are available online at <https://www.brand.de/myproduct>.

The following certificates are available for

BLAUBRAND® volumetric instruments, Class A plastic volumetric instruments:

- + batch certificate with a batch number, mean, standard deviation
- + individual certificate with individual serial number, measured volume, measurement uncertainty

Liquid Handling instruments for measuring volume

- + certificate with serial/batch number, statement of accuracy and coefficient of variation

Batch, serial number and DAkkS calibration seal

Batch number for volumetric instruments

example 02 **DE-M** 26

02 = sequential number

DE-M 26

= labeling according to German Weights and Measures Act for the 2025 manufacture year.

Available for the following products:

- + BLAUBRAND® volumetric instruments (burettes, volumetric flasks, graduated pipettes, graduated and mixing cylinders, automatic burettes, bulb pipettes)
- + Class A plastic volumetric instruments

Serial number

example: 26 A 12345

26 = manufacture year

A = production month

A = January

B = February

C = March

D = April

E = May

F = June

G = July

H = August

J = September

K = October

L = November

M = December

12345 = sequential number

Available for the following products:

- + BLAUBRAND® volumetric instruments (burettes, volumetric flasks, graduated pipettes, graduated and mixing cylinders, automatic burettes, bulb pipettes)
- + Class A plastic volumetric instruments
- + Liquid Handling instruments (Dispensette® S, HandyStep®, Titrette®, Transferpette®, Transferpettor)

DAkkS calibration seal

example:

1001

= sequential calibration number

D-K-18572-01-00

= registration number in the DAkkS (German Accreditation Body)

2026-01

= year-month of calibration

Available for the following products:

- + BLAUBRAND® pycnometer
- + ASTM centrifuge tubes
- + volumetric instruments
- + Volumetric instruments made of plastics
- + Liquid Handling instruments (Dispensette® S, seripettor®, seripettor® pro, HandyStep®, Titrette®, Transferpette®, Transferpettor)
- + Liquid Handling Station

USP individual certificate

Companies that manufacture pharmaceutical products for the American market and are therefore audited by US authorities, e.g. the FDA (Food and Drug Administration), are required to comply with the requirements of the USP (United States Pharmacopeia). BLAUBRAND® USP volumetric instruments comply with the Class A error limits required by the USP. There is no such regulation for liquid handling devices.

For selected BLAUBRAND® volumetric instruments, we confirm the required volume error limits with a batch certificate and upon request, with an individual certificate. The error limit and the USP characters are printed on the measuring instrument.

DAkkS calibration certificate

As an official certificate, the DAkkS calibration certificate documents the traceability of the measured values to national and international standards such as, among others, to the DIN EN ISO 9001 and DIN EN ISO/IEC 17025 standards required for the monitoring of measuring instruments. More information see page 9.

Batch, individual, USP certificates for BLAUBRAND® volumetric instruments

Batch certificate

BLAUBRAND®- Volumetric instruments are now supplied with one free Batch Certificate per packing unit!

When ordering several packs of a particular BLAUBRAND volumetric instrument, all packs should be from the same batch to facilitate their statistical verification.

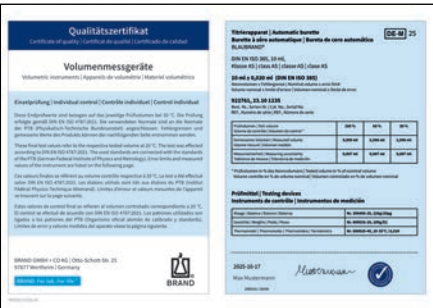

To make your order as "all packs from the same batch" (as far as possible), simply place a "2" in front of the BRAND catalog number.

With denter-specific catalog numbers please add for ex. "from one batch".

Extra charge for "all packs from the same batch"

Catalog number	Product specification	Extra charge per unit
2xxxxx	BLAUBRAND® volumetric instruments, "all packs from the same batch"	0.42 €

Calibration lab accredited by DAkkS at BRAND

From calibration lab accredited by DAkkS

BRAND has an accredited calibration laboratory by the DAkkS (Deutsche Akkreditierungsstelle GmbH) according to DIN EN ISO/IEC 17025. The calibration laboratory at BRAND is therefore authorized to issue DAkkS calibration certificates for the following volumetric instruments.

BRAND calibrates the following volumetric instruments with the nominal volumes listed below, no matter if they are new or already in use:

For ordering volumetric instruments with DAkkS calibration certificate, add "DAkkS" as a prefix to the catalog number. To obtain a DAkkS calibration certificate for volumetric instruments already in use (regardless of their make), send the instruments to BRAND marked with the note "Calibration DAkkS-accredited (ISO 17025)". The order form is available for download from www.brand.de/service

A major difference between works calibration services and DAkkS laboratories is the accurate determination of the respective uncertainty of measurement guaranteed by the accredited laboratory and supervised by the DAkkS.

DAkkS calibration certificate

The DAkkS calibration certificate documents officially the traceability of measuring results to national and international standards as required by the standards DIN EN ISO 9001 and DIN EN ISO/IEC 17025 for the monitoring of measuring instruments.

When is a DAkkS calibration certificate necessary?

DAkkS calibration certificates are appropriate in uses in which calibrations of an accredited laboratory are requested, where high level calibrations are demanded and for calibration of reference standards and instruments for comparative measurements.

Maintenance and calibration service for your Liquid Handling instruments

Instruments used for control, inspection, measuring and testing require written protocols for routine testing and calibration. A testing schedule and an inspection and testing procedure must be defined. Documentation is required of the Accuracy and Coefficient of Variation testing that is performed.

Frequent testing can become time consuming and expensive. Measuring instruments must be taken out of service and may have to be adjusted or repaired.

BRAND offers full calibration service including instrument adjustment and repair. This reduces service downtime and saves money.

BRAND calibration service is available for:

- + Bottle-top dispensers
- + Digital bottle-top burettes
- + Piston-operated pipettes (single and multichannel)
- + Repetitive pipettes (Stepper)

Testing according to DIN EN ISO 8655

At BRAND, a team of qualified personnel in temperature and humidity controlled rooms using the most modern balances and calibration software, calibrate liquid handling instruments, regardless of their make, according to DIN EN ISO 8655.

Instruments with adjustable volumes such as Transferpette® microliter pipette or the Dispensette® bottle-top dispenser are tested at nominal volume, and at 50% and 10% of nominal volume.

Results of the calibration are documented with a detailed calibration certificate, which meets the requirements of many different testing procedures.

BRAND Calibration Service

- + Calibration and adjustment of liquid handling instruments regardless of their make (BRAND instruments can be maintained and repaired if necessary).
- + Detailed calibration certificate works calibration certificate or DAkkS calibration certificate
- + Upon request, we will issue an additional certificate that documents the metrological status of the instruments you send in for adjustment/maintenance/repair.
- + Cost-efficient handling

Calibration order forms and declaration on the absence of health hazards are available for download from our website at www.brand.de/service.

Information on the exchange and repair service

1. Warranty for materials and workmanship is based on our current Sales Terms and Conditions (see downloads at www.brand.de/en/terms-and-conditions). Unless otherwise stipulated, the warranty period for all instruments is 1 year from date of delivery. As an exception, the warranty period for mechanical single-channel pipettes Transferpette® S (7058xx) and Transferpette® S (706xxx) is 36 months.
2. In addition, we offer an exchange service for a period of 6 years from the date of purchase: Customers can have their defective instrument replaced at a preferential price (even in the case of damage that does not constitute a defect within the meaning of the law). When ordering Liquid Handling replacement instruments, please add "AT" before the catalog number of the device.
3. In addition, we provide a repair service for the entire service life of your BRAND-instrument. The listed prices always include the following:
 - + Functional check and failure analysis
 - + Cost estimate (for severe repairs)
 - + Repair
 - + Functional check (+ calibration if necessary)

If a repair is uneconomical, you will be offered an exchange instrument (within the exchange period of 6 years).

All prices are stated in Euro plus VAT valid at the time of invoicing, if applicable.

Purpose of the "Declaration on the Absence of Health Hazards"

In compliance with workers health regulations and in order to protect our staff against possible hazards caused by contaminated instruments, we ask you to have the "Declaration on the Absence of Health Hazards" filled in and signed by the user of the instrument. Please return the completed form together with the instrument. Please understand that repairs can only be carried out once the completed form is received at our end.

The form is available for download at www.brand.de/en/service-support/maintenance-and-calibration-service.

For any of the above mentioned services, the user can choose to contact either BRAND directly or the local distributor.

Our repair price

Repair prices include the cost of the exchanged components and/or the spare- and accessory parts plus the fee for service time.

Structure of serial number

The instrument number shows information concerning month and year of manufacture and the continuous serial number:

Serial number beginning with 01 – 12 the following system applies: e. g. **05 N 12345**

05 = month of manufacture May
(01 = January, 02 = February, etc.)

B = year of manufacture 2004	H = year of manufacture 2010
C = year of manufacture 2005	J = year of manufacture 2011
D = year of manufacture 2006	K = year of manufacture 2012
E = year of manufacture 2007	L = year of manufacture 2013
F = year of manufacture 2008	M = year of manufacture 2014
G = year of manufacture 2009	N = year of manufacture 2015

12345 = continuous serial number

Serial number beginning with 15 or more it is structured as follows:

e.g. **15 A 12345**

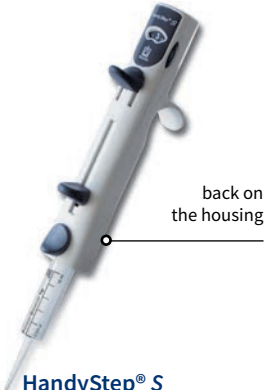

15 = year of manufacture 2015
A = month of manufacture

A = January	G = July
B = February	H = August
C = March	J = September
D = April	K = October
E = May	L = November
F = June	M = Dezember

12345 = continuous serial number
